PROFESSIONAL SUMMARY

QA Engineer with experience in API Automation (RestAssured + TestNG) and Manual Testing across travel, ed-tech, and sales platforms. Skilled in REST API validation, automation framework development, regression testing, performance testing (JMeter), SQL verification, and Agile QA delivery. Strong defect management expertise using JIRA and hands-on experience in end-to-end QA ownership. Actively upskilling in Selenium WebDriver with Java and Page Object Model (POM) to expand into end-to-end UI automation and SDET roles.

Experience

Hawk MarTech | Quality Associate

July 2025 - Present

Project: Viacation (Tours & Travel Website & App)

- Executed functional, regression, UI testing for web and mobile platforms.
- Validated Destinations, Tours, Packages, Admin Panel modules ensuring workflow correctness and data accuracy.
- Automated REST APIs using RestAssured + TestNG, covering schema validation, authentication, and regression.
- Performed performance testing using JMeter, analyzing throughput, latency, and system behavior under load.
- Logged and tracked defects in JIRA, collaborating with dev teams in Agile sprints.
- Conducted cross-browser and multi-device testing ensuring responsive UI compatibility.

Stratosphere IT Services Pvt. Ltd (Magic Edtech) | Test Trainee

April 2025 - June 2025

Project: Pearson (Digital Learning Platform)

- Tested digital learning modules for usability, playback, and functional accuracy.
- Authored test cases and executed smoke/regression cycles improving sprint stability.
- Reported defects in JIRA with reproducible steps and validation evidence.

Salescode.ai, Gurugram | Technical Project Associate

April 2024 - November 2024

Project: KGPL, KBPL, ENRICH - Coca-Cola Bottlers App

- Performed functional testing for sales workflows and analytics dashboards.
- Conducted REST API testing and automation using Postman + Rest Assured with Cucumber (BDD), validating payloads, authentication, backend-to-UI mapping, status codes, and request/response schema.
- Executed SQL queries to verify transactions, reporting accuracy, and data integrity.
- Supported UAT and requirement clarification with client stakeholders.
- Managed defects and sprint tracking in JIRA.

Projects

API Automation Framework | RestAssured + TestNG

- Built scalable automation framework using Java, RestAssured, TestNG, Maven.
- Automated CRUD + regression suites with reusable utilities and validations.

Technical Skills

- Languages:** Java, SQL, Python C, C++.
- Testing:** Functional, UI, Regression, Sanity, Retesting, Smoke, Web App, Mobile, API, Database, Performance Testing.
- Tools:** Postman, Swagger, JMeter, Rest Assured, TestNG, Maven, JIRA, Taiga, Confluence, Eclipse.
- Development Concepts:** SDLC, STLC, Agile, Bug Lifecycle.
- Database:** MySQL.
- Documentation:** Test Plans, Test Cases, Bug Reports.

Certifications

- Introduction to SQL (Sololearn).
- Introduction to Software Testing (Simplilearn).
- API Testing (Postman Academy).

Achievements and Honours

- Research Paper titled "Exploring ML Methods for Sentiment Analysis in Text Data" published in the IEEE Conference (International Conference on Intelligent Systems for CyberSecurity) 2024.

Education

KIET Group of Institutions

Bachelor of Technology - Computer Science and Engineering (CGPA: 8.36/10.0)

Ghaziabad, Uttar Pradesh

November 2020 - July 2024

Guru Tegh Bahadur Public School

12th CBSE - Science (Percentage: 87.6)

Meerut Cantt, Uttar Pradesh

April 2018 - March 2020

St. Mary's Academy

10th ICSE (Percentage: 88.6)

Meerut Cantt, Uttar Pradesh

April 2016 - March 2018
